CRIME IN WASHINGTON STATE

SUMMARY

RATE OF INDEX CRIME-	Index crimes in Washington totaled 301,920 for 1986, constituting 70.4 offenses per 1,000 population. This represents an increase in the total number of index crimes of 6.4% over those reported in 1985.
VALUE OF PROPERTY STOLEN AND RECOVERED -	Property valued at $153,212,893. was reported stolen in 1986. Of this amount $37,142,000. or 24.2% was recovered. Property loss value shows an 8.5 percent increase over 1985.
NUMBER OF LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED -	Three officers were killed in the line of duty during 1986, one by a felonious act and one by accident or negligence and one accidental. This compares to two law enforcement officers killed in 1985. 1,503 law enforcement officers were assaulted during the year 1986. Assaults on officers showed a 21.0% increase from the 1,242 officer assaults reported in 1985.
RATE OF CRIME CLEARANCES -	There was a 22.4% clearance rate for all index crimes reported in 1986. The clearance rate for 1985 was 23.7%.
ARRESTS -	A total of 179,976 arrests were made in 1986 constituting a 0.2% decrease over the year 1985.
DRUG ABUSE ARRESTS -	There were 7,687 reported drug abuse violations. Of this number, 15.6% were persons under 18 years of age. Possession of marijuana constituted 56.2% of the total drug abuse arrests, while sale of marijuana constituted 11.0%.
DWI ARRESTS -	29,339 arrests were made in 1986 for DWI which constituted 16.3% of total arrests reported in 1986. This percentage represents the arrest of 28,884 adults and 455 juveniles.
LAW ENFORCEMENT EMPLOYEES -	In 1986 there were 9,621 full time law enforcement employees in the State of Washington. This represents a 2.1% increase over the 9,425 reported in 1985.

POPULATION - The estimated population in Washington for 1986 was 4,419,700 as compared to 4,379,408 for 1985. This represents a 0.9% increase.

LAW ENFORCEMENT AGENCY CONTRIBUTORS - The total number of law enforcement agencies contributing to the Uniform Crime Reporting Program in Washington was 176 for 1986. In 1985, 178 agencies reported. This number reflects a 1.1% decrease in the total number of reporting agencies.

ACKNOWLEDGMENTS

CRIME IN WASHINGTON STATE 1986 was compiled from data submitted to the Washington Uniform Crime Reporting division of the Washington Association of Sheriffs and Police Chiefs by Washington Law Enforcement agencies during 1986. Estimated coverage is about 97.1% of the state population.

Input and guidance from the Washington Association of Sheriffs and Police Chiefs Uniform Crime Reporting Advisory Committee is gratefully acknowledged.

INTRODUCTION

This is the seventh Annual Report of criminal offenses, arrests, law enforcement officers killed or assaulted, and full-time law enforcement employees produced by the Washington Uniform Crime Reporting program (WUCR). Funding for WUCR is provided by a contract agreed upon with the Washington State Criminal Justice Training Commission (CJTC). Administration of WUCR is the responsibility of the Washington Association of Sheriffs and Police Chiefs (WASPC). WUCR is unique in that it is the only state UCR program that is sponsored, administered and supported by an organization of contributing agency administrators, rather than a bureau or department of state government.

WASHINGTON UNIFORM CRIME REPORTING PROGRAM

Although the impetus for collecting nationwide crime information dates back to the 1890's, no ongoing program was initiated until the Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP) was established in 1917. This committee's responsibility to provide management information to law enforcement agencies was eventually turned over to the Federal Bureau of Investigation (FBI) in 1930, when the FBI received a congressional mandate to collect and disseminate national crime information. The IACP has continued to serve the Uniform Crime Reporting Program (UCR) in an advisory capacity and has been joined in this responsibility by the committee on Crime Records of the National Sheriffs Association.

Data for **CRIME IN WASHINGTON STATE 1986** are compiled from monthly UCR reports submitted by individual law enforcement agencies throughout the State of Washington. WUCR was activated in October 1979, and began the collection of monthly reports from contributing agencies in January

1980. At the present time the UCR program is operated on a semi-manual and computerized basis. The computer program is designed to provide automated data input processing and provides various programs that are necessary for statistical purposes in the criminal justice system.

OBJECTIVES OF WASHINGTON'S UCR

Increasing attention has been focused on the problem of crime in our communities in recent years. Because of this attention, many segments of our population needs more complete information for a variety of reasons.

Citizens are understandably concerned about the possibility of becoming victims of crime, but may not know what the real probability is. Law enforcement professionals, managers and administrators who must focus on crime in their own jurisdictions, also need to know what is occurring in surrounding jurisdictions in order to deploy personnel and equipment more efficiently to protect citizens and bring criminals to justice. Legislators need statewide information about crime in order to pass realistic laws that will increase the stability of our society. Researchers and planners need to know what is actually happening to predict trends and recommend changes.

The objectives of **CRIME IN WASHINGTON STATE 1986** are to implement and administer a uniform system of collecting crime and arrest statistical data from contributing law enforcement agencies in the State of Washington and present the information needed by each of these groups. This information will not in itself prevent crime, but it may encourage segments of society to understand the problem and to work together with law enforcement agencies to reduce crime.

Additional objectives of **CRIME IN WASHINGTON STATE 1986** when compiled and evaluated are:

1. To identify the number of crimes reported by contributing agencies.
2. To identify the geographical distribution of reported offenses.
3. To determine whether or not reported crimes have increased or decreased.
4. To determine whether or not reported crimes have increased or decreased by population groups.
5. To determine the number of clearances and the clearance rate for reported offenses.
6. To determine the reported number of arrests by charge, age, sex and ethnic origin.
7. To determine the number of law enforcement officers assaulted and killed.
8. To determine the number of commissioned (sworn) and civilian law enforcement employees by sex.
9. To determine the rate per population group of commissioned (sworn) and civilian law enforcement employees.

CRIME FACTORS

Care should be taken in drawing conclusions and making decisions about problems based solely on crime and arrest data that is reported to WUCR. Factors relating to crime reporting practices, law enforcement policies, population characteristics and attitudes all contribute to variation in reported data.

Some general factors which may affect the amount of crime reported and type of crime committed are:

1. The density and size of the community population and of its surrounding area.
2. The variations in composition of the population, particularly to age.
3. The economic status, education and recreation characteristics of the community population.

4. The relative stability of the population, including commuters, seasonal, and other transient types.

5. The climate, including seasonal weather conditions, and other geographical variations.

6. The religious characteristics of the population.

7. The effective strength of law enforcement agencies.

8. The policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional and probational).

9. The attitude of the public toward law enforcement problems.

10. The crime reporting practices of the citizenry.

11. The administrative and investigative follow-up of the local law enforcement agency, including the degree of adherence to crime reporting standards.

WUCR STATISTICAL INTERPRETATION

Statistics are a tool used to summarize information so that patterns or trends become clearer. All statistics must be interpreted with an understanding of just what it is that they can say. Too often, numbers of the type in this report are used incorrectly to draw conclusions that the statistics simply do not support. In order to avoid this error, it is necessary to know what information is included and how it is reported.

To obtain accurate information from many different agencies, the National UCR Program has to precisely define the methods for counting such information as the number of offenses, arrests, clearances and value of stolen or recovered property. The methods of counting and some resulting limitations are explained below.

Classification of Offenses

UCR divides offenses into two major classifications which are designated Part I and Part II offenses. This distinction is important to keep in mind because different information is collected for each. Part I offenses include (1) Violent Crimes: murder and non-negligent manslaughter, forcible rape, robbery, and aggravated assault; and (2) Property Crimes: burglary, larceny-theft, motor vehicle theft and (since January, 1979) arson. These reported Part I offenses comprise the FBI Crime Index. All other offenses are classified under Part II offenses.

Part I offenses are used to calculate the Crime Index and Crime Rate.

All offenses are classified on the basis of law enforcement investigation in accordance with UCR offense definition (which are NOT necessarily identical to the Revised Code of Washington definitions). Because WUCR identifies and tallies a police problem, offense classifications are not based on the findings of a court, medical examiner, jury or other judicial findings.

Counting the Offenses

The number of offenses is counted only for Part I crimes and simple assault. The method of counting varies with the type of crime committed, and it is important to remember that the number of offenders does not determine the number of offenses.

For murder and non-negligent manslaughter, forcible rape, aggravated assault, one offense is counted for EACH VICTIM, regardless of the number of offenders involved.

For robbery and larceny, one offense is counted for EACH DISTINCT OPERATION which is separate in time and place. The number of victims in any one operation does not determine the number of offenses. For example, if 20 people are robbed in a bar at the same time, only ONE offense has occurred. However, if that robber leaves the bar and holds up a passerby, a second offense has occurred. For burglary, one offense is counted for each structure which is illegally entered. However, when the structure is an apartment house, business, or office building in which units are leased for a period of time, one offense is counted for each unit burglarized.

For motor vehicle theft, one offense is counted for each vehicle stolen.

> **NOTE:** Attempts to commit any of the Crime Index offenses are counted as actual offenses, except that attempts to kill and assault to kill are counted as aggravated assaults.

For multiple offenses that occur in one crime incident, only the most serious offense is counted. Part I crimes are ranked according to seriousness and appear in order from most serious to least serious crimes. Example: A robber takes a man's wallet and then beats him causing serious injury. Both a robbery and an aggravated assault have occurred, but because robbery is considered by UCR to be more serious, only the robbery is counted. This is known as the **HIERARCHY RULE**. From one perspective, this method of counting seriously understates the crime problem, but from another, it prevents undue inflation of crime statistics.

NOTE:

1. Arson is an exception to the above rule and is counted separately from other offenses.
2. The number of offenses is not counted for Part II offenses.

Arrests

Arrest information is collected for all Part I and Part II offenses according to the age, sex and race of the offender. It is not possible, however, to correlate race with sex or specific ages because the information is collected independently, thus limiting analysis. Furthermore, arrest figures cannot be directly related to the number of crimes cleared because the arrest totals count all offenders arrested for each offense, and clearance-totals count only the offense for which an arrest or arrests have occurred.

Clearances

An offense is considered cleared (solved) when at least one offender is arrested for a crime, even though several may have been involved. Offenses may also be cleared by exceptional means when the offender commits suicide, makes a dying declaration, confesses while in custody or serving time for another crime, is prosecuted in another jurisdiction for the same offense, is a juvenile who is handled by notifying the parents, or when the victim refuses to prosecute or another jurisdiction refuses to extradite the offender, etc..

Clearances are counted as "adult" and "juvenile". A "juvenile" clearance is counted only when juveniles are exclusively involved in the clearance of an offense. If the arrest of both adults and juveniles result in a clearance, it is counted as an "adult" clearance.

NOTE: Not all crimes are cleared within the calendar year in which the offense occurs.

Information Grouping

The crime statistics reported by an individual agency indicate what is happening in one particular area, but to make rational comparisons among a number of jurisdictions, communities with similar characteristics need to be grouped together. It may be important to know how a city compares with cities of similar size, or how patterns of crime differ in various types of communities. Grouping agencies with similar characteristics allows these determinations to be made. Aside from being merely interesting, such comparative analysis provides the basic information for long-range criminal justice planning.

WUCR groups jurisdictions on the basis of population size in this report, and if any types of comparisons are to be made the reader should also consider what type of community it is that is being compared. Grouping by population size considers only the population of the relevant area in this report. It does not consider proximity to a major metropolitan area in spite of the fact that widely different crime patterns could be expected in a city of 30,000 which is a suburb of Seattle or Tacoma and one which is in a rural area. In this report, grouping by population does not take into account the urban/suburban/rural character of the area, and includes a wide range of populations in each category. For use in interpreting this report, the WUCR grouping systems are listed below:

POPULATION GROUPINGS - CITIES, TOWNS AND SHERIFFS DEPARTMENTS

GROUP	POPULATION
1	Over 250,000
2	100,000 to 250,000
3	50,000 to 100,000
4	25,000 to 50,000
5	10,000 to 25,000
6	5,000 to 10,000
7	2,500 to 5,000
8	Under 2,500

CRIME INDEX

The Crime Index is a basic measure of crime which can be used for comparing the extent of crime among cities, counties and states of similar size. The Index is simply the total number of certain offenses that occur in a given area in a given calendar period (usually quarterly and annually). The offenses are murder and non-negligent homicide, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft and arson -- all of the Part I offenses except simple assault and manslaughter by negligence.

The offenses were selected as indicators of the total amount of criminal activity because they are serious offenses that are the focus of widespread concern. They occur with sufficient frequency to reflect fluctuations in the overall level of criminal activity. They are most likely to be reported and reported accurately, to the law enforcement officers due to their seriousness. They are offenses that can clearly and specifically be defined.

Notwithstanding its usefulness, the Index does have limitations. The relationship between the Index offenses and total criminal activity, both reported and unreported, has never been firmly established. The varying severity of offenses is not taken into account, resulting in equal weight being given to a shop lifting and a forcible rape. Furthermore, the actual incidence of crime in a city may not be accurately depicted by the Index if the majority of the city's crime involves non-Index offenses such as gambling and narcotics.

CRIME RATE

The Crime Rate is based on the Index, but adjusts the Index for variances in population by indicating the number of Index offenses for each 1,000 persons (other base population increments may be used such as the number of Index offenses per 100,000). This means that comparisons may be made among several areas with different populations, or within one area with different populations over a period of time, without the information being biased by population differences. For most general comparisons, the Crime Rate is probably the most accurate to use.

To calculate the Crime Rate, first divide the population of the area by 1,000, and divide the Crime Index by that answer. For example, if a city has a population of 273,000 and a Crime Index of 21,257 the calculations would be:

1. 273,000 divided by 1,000 = 273.00
2. 21,257 divided by 273.00 = 77.86

Thus, although the city's Crime Index is 21,257, its Crime Rate (the number of crimes for each 1,000 people) is 77.86.

Law Enforcement Code of Ethics

As a Law Enforcement Officer, *my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.*

I will *keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.*

I will *never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.*

I recognize *the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.*

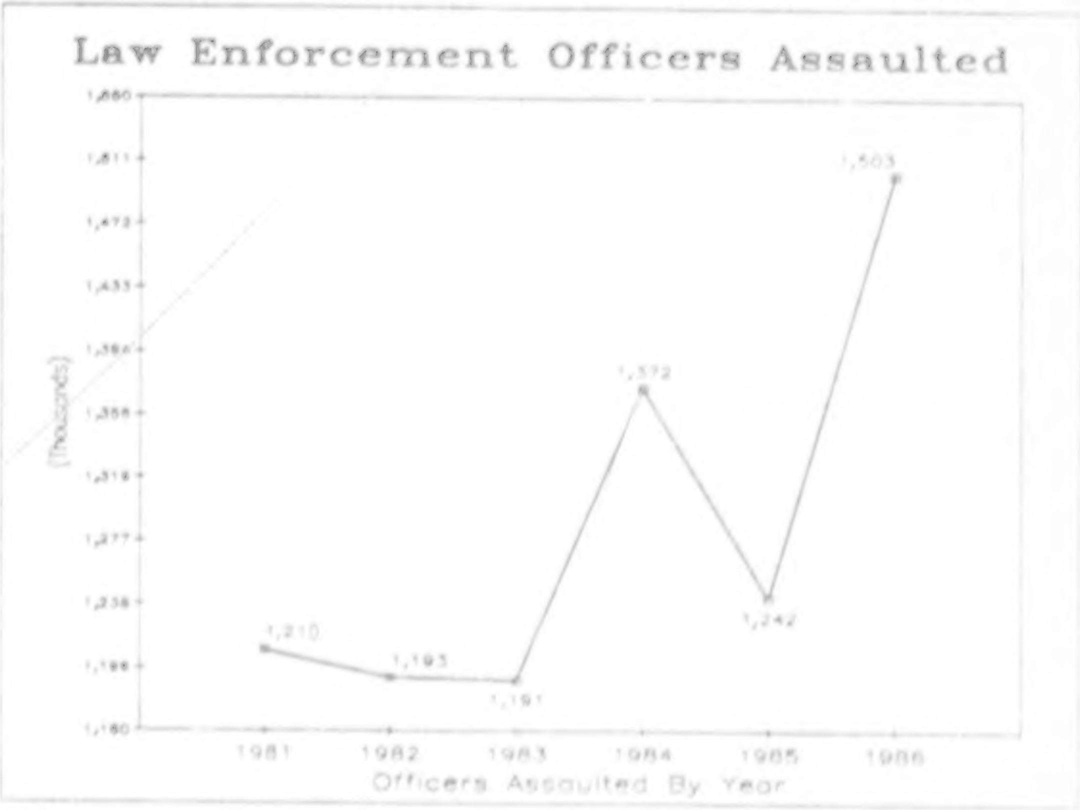
LAW ENFORCEMENT OFFICERS ASSAULTED



WASHINGTON ASSOCIATION OF SHERIFF & POLICE CHIEFS

"IN MEMORIAM"

Sergeant Louis A. Millard
Colville Tribal Police Department

During the early morning hours of August 27, 1986, Sergeant Louis A. Millard was shot and killed and Assistant Chief John Dick was wounded. Officers converged on a house to arrest a man who earlier, with the help of his son, had fled from officers who were seeking to serve him with an arrest warrant. When the officers arrived, the suspects began to fire shots and flares from the residence. At daybreak it was discovered that Sergeant Millard had been shot and killed.

The suspects have been found guilty and sentenced to life imprisonment, without parole, for the death of Sergeant Millard and an additional sixty-two months for the assault on Assistant Chief Dick.

Sergeant Millard was thirty-two years old and had been with the Colville Tribal Police Department for ten years.

"IN MEMORIAM"

Deputy Michael J. McNabb
Klickitat County Sheriff's Department

Deputy Michael J. McNabb was returning home at the end of his shift on April 17, 1986, when he was killed in a car accident. He was rounding a curve when another vehicle crossed the center line and hit his vehicle head on, killing him instantly. The other driver has been charged with vehicular homicide but has not gone to trial at this time.

Deputy McNabb was twenty-six years old and had been with the Klickitat County Sheriff's Department for four years.

WASHINGTON ASSOCIATION OF SHERIFFS & POLICE CHIEFS

"IN MEMORIAM"

Officer Larry Walker
Tacoma Police Department

October 25, 1986, in the evening hours, Officers Larry Walker and Dave Paul answered a domestic call from a woman who had fled her home after her husband had threatened to kill her and their child. When they arrived on the scene, she was waiting for them at a phone booth down the block from her home. They went to talk to her, and then walked with her to the residence. As they approached, a television was thrown through the front window of the suspect's house. Suddenly a man appeared at the corner of the house, brandishing a large butcher knife and threatening to kill Officer Paul. Officer Paul gave him numerous warnings to stop and to drop the knife, but the suspect ran toward him. Officer Paul fired two rounds but the subject did not stop or fall back. Back-pedaling, Officer Paul slipped and the suspect was immediately on top of him and a struggle ensued.

Officer Walker was now in the immediate area. As the struggle continued, Officer Paul's gun discharged once. Officer Paul got the suspect off of himself and fired two more shots. Officer Paul was able to get up and discovered that his partner Larry Walker, had been shot during the struggle. Officer Walker was taken to the hospital and died a short time later. The suspect was fatally wounded.

Officer Walker was forty-four years old and a nineteen year veteran of the Tacoma Police Department.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Law enforcement officers may become victims of assault as a consequence of their occupations. The Uniform Crime Report addresses all assaults on officers which involve "more than mere verbal abuse or minor resistance to an arrest."

In 1986, one law enforcement officer was feloniously killed in the line of duty, compared to two in 1985.

In 1986, contributing agencies reported 1503 officer assaults with 28.3% of the total assaults resulting in personal injury to the officer. The type of activity in which an officer was most likely to be assaulted was responding to a "disturbance call", which accounted for 33.7% of the total officers assaulted. Other activities of significance include: attempting other arrests, 23.4% of the total; handling and transporting of prisoners, 10.0% of the total; traffic pursuits and stops, 8.6% of the total.

Hands, fists and feet were used in 86.4% of the assaults, followed by other dangerous weapons 6.2%, firearms 4.1%, and knife or cutting instrument 3.3%. The type of assignment where most assaults occurred was a one-person vehicle resulting in 617 assaults or 41.1%, followed by a two-person vehicle when the officer was assisted, 302 assaults or 20.1%. During a 24-hour period using 8-hour shifts, 8 p.m. to 4 a.m. reflected the most assaults, 897 assaults or 60.0% with the least occurring between 4 A.M. to 12 P.M., 212 assaults or 14.1%.

Law Enforcement Officers Killed or Assaulted (Cont'd)

Combining these factors, an officer stands the highest risk of assault when responding to a disturbance call between the hours of 8 P.M. and 4 A.M., in a one-person vehicle with the offender using his hands, fists or feet as a weapon.

During 1986, police assaults were cleared (by arrest or exception means) 97.3% of the time.

GLOSSARY

WUCR GLOSSARY

ACTUAL OFFENSE:

An offense which law enforcement personnel confirm to have happened.

ADULT:

A person 18 years of age or older at the time of committing a crime.

ALL OTHER OFFENSES:

State and local offenses not otherwise specified.

ARRESTS:

The act of taking a person into custody by authority of law to charge him or her with a criminal offense. An adult arrest should be reported when a law enforcement officer detains an individual with the express intent of seeking charges against this person for a specific criminal offense(s) and a record is made of the detention.

ARSON:

Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc...

ASSAULT, AGGRAVATED:

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. All assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified as aggravated.

ASSAULT, SIMPLE:

An unlawful attack or attempted attack by one person upon another in which no weapon was used and which did not result in serious or aggravated injury to the victim.

BURGLARY:

The unlawful entry of a structure to commit a felony or a theft.

CLEARANCE:

The solving of an offense by arrest or in some circumstances, by exceptional means.

CLEARANCE RATE:

Percentage of the total crimes cleared compared to the number reported.

Example:

a. Number of robbery clearances, 38

b. Number of total robberies, 72

Divide: 38 by 72 = .528

Multiply: .528 X 100 = 52.8

c. 52.8% clearance rate for robberies.

CRIMES AGAINST PERSONS:

Subclassification of the Crime Index which encompasses murder and non-negligent manslaughter, rape, and aggravated assault.

CRIMES AGAINST PROPERTY:

Subclassification of the Crime Index which encompasses robbery, burglary, larceny (theft), motor vehicle theft and arson.

CRIME INDEX:

Classification of eight offenses selected for their seriousness, frequency of occurrence, and likelihood of being reported. Includes murder and non-negligent manslaughter, rape, robbery, aggravated assault, burglary, larceny (theft) motor vehicle theft and arson.

CURFEW AND LOITERING LAWS - PERSONS UNDER 18:

Transgressions of curfew or loitering ordinances pertaining to juveniles.

DISORDERLY CONDUCT:

Committing or attempting to commit a breach of the peace. Includes affray, unlawful assembly, disturbing the peace, disturbing meetings, disorderly conduct in state institutions, blasphemy, profanity, and obscene language, desecrating the flag, and refusing to assist an officer.

DRIVING UNDER THE INFLUENCE:

The driving or operating of any vehicle or common carrier while drunk or under the influence of liquor or narcotics. This includes operating a motor vehicle, engine, train, street car, boat, etc., while intoxicated.

DRUG ABUSE VIOLATION:

Transgression of state and local laws relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

DRUNKENNESS:

Not applicable in Washington state.

EMBEZZLEMENT:
